

*A Provider of Data Management
Production Services Using
Oracle Clinical™ Systems.*

In order to meet today's data management needs, Client Associated Businesses offers efficient and productive data management solutions by using a resourcing strategy that provides our clients the expertise of a traditional CRO and the flexibility of a staffing agency.

Client Associated Businesses, Inc. has supported the Oracle Clinical™ production needs of the industry's leading organizations for over 7 years. With the OC CAB, we provide our clients an alternative to traditional staffing and outsourcing models.

OC CAB is a production group of Client dedicated Functional Service Unit personnel providing Data Processing, Data Management, and Programming functional services to a client using the client's OC systems, processes and applications through a secure high speed communications connection with Client Associated Businesses.

OC CAB staffs include trained and experienced Oracle Clinical™ developers, programmers, data managers, data entry technicians, certified database administrators, and certified trainers.

For more information about Client Associated Businesses, Inc., and detailed information on OC CAB production services, bill rates, and estimating budget tool please visit our web site at www.clincab.com, or contact the Director of New Business Development at (203) 882-8080 extension 111.
